

## DR300 & DR310

### **A Stand-alone Tag and Label Printer the DR300/310**

Whether it's for printing EAN labels, address labels, retail pricing labels or tags, the SATO DR300/310 printer always performs. Available to be used either in direct thermal or thermal transfer mode, with a range of options, including a touch-screen pad for a true stand-alone solution, the DR300/310 always produces a professional finish.

- ✓ **Stand-alone solution**
- ✓ **Larger label rolls  
(250mm diameter)**
- ✓ **Catch tray option**
- ✓ **Cutter option**
- ✓ **Tags and labels**

**Stand-alone** – Use the touch-pad or qwerty keyboard to recall the formats, input data or alter the label size.

**Versatile** – The DR 300/310 prints graphics, text and bar codes, which can be rotated to suit your label design.

**High Speed** – Tags and label designs are formatted at speed by the RISC processor, and quality printing is delivered 125mm per second.

**Professional** – A wide range of options are available, including a dispenser for on-demand printing, a cutter for labels intended for later use and a catch tray to neatly stack and protect your labels.

# DR310
